

EXTENDED LOCK WARRANTY

All Champion safes come with a premium lifetime warranty (Model T- 5 years) that covers all aspects of the safe except the lock. The safe's lock is not manufactured by Champion Safe Company and is covered with a short-term manufacturer's warranty, either a two-year (electronic) or five-year (mechanical) warranty.

Over time lock adjustments or repairs may become necessary. Even the highest quality locks can fail and need replacement. These repairs and replacements can be expensive. The average locksmith fee to open a safe to adjust, repair or replace it's lock is between \$300.00 – \$600.00 or more depending on the safe's lock protection system.

Champion Safe Company's extended lock warranty extends the warranty for the period and conditions of the agreement. We offer three levels of protection:

- 1) Ten-year extended warranty on all dial and electronic locks.
- 2) Fifteen-year extended warranty on all dial and electronic locks.
- 3) Lifetime transferable extended warranty on all dial and electronic locks. (See championsafe.com for lock warranty transfer requirements).

The extended lock warranty covers the safe's lock including all adjustments, repairs or replacement. Champion Safe will cover all locksmith costs including travel, parts and labor. Not covered under the warranty is the damaged caused by attempts to reset or service the lock by unqualified personnel, excessive manipulation, neglect, abuse or extreme impact to the lock. Champion Safe Company is not liable for any contents of any safe for any reason. Champion Safe Company specifically disavows any other expressed or implied representation, warranty, or liability related to the condition or use of the product. Exclusions include disposable items like batteries.
